

## Student Textbook Library

To help alleviate student costs, LSSA maintains a library of past textbooks for some core and popular courses in the La Follette curriculum. Before spending money on purchasing your textbooks, see if the books are provided on the bookshelf in the corner of the lounge in the La Follette house basement. Many of these required texts for core courses do not change each year.

These books are donated by past students and should not leave the La Follette basement. Feel free to use them for your readings and homework throughout the semester.

If you are interested in donating your unused textbooks to the bookshelf at the end of the semester, contact the LSSA graduation coordinator with the name of the book and course number/title.

<b>Course Title (Number)</b>	<b>Instructor</b>	<b>Textbook Title (Edition)</b>	<b>Author(s)</b>
